1st International Conference on Mining in Europe

Aachen, Germany

The key objective of the 1st International Conference on Mining in Europe is to share the latest developments on mining activities, developments and research in Europe. The global mining community faces significant challenges, ranging from technological to social, environmental and economic issues. The European mining community has confronted and solved such challenges over centuries and has thereby delivered important contributions to the use and development of our mineral resources.

STONECHANGE 2016

Carrara, Italy

The international conference STONECHANGE 2016 (“Stone Sector and Changing Trends”) intends to bring to the famous marble hub of Carrara the private sector and institutional stakeholders of the Dimension Stone Industry to discuss the sector’s changing trends and how to take advantage of existing opportunities for a sustainable development. STONECHANGE 2016 is intended as a

key “turning point” for the modernisation of the EU stone sector in a global perspective with the aim of making the stone community aware that making the Dimension Stone Industry innovative and sustainable is the sole way to keep it alive and make it more mature and modern to face the present and next future global challenges.

EMECS'11 SeaCoasts XXVI. Managing risks to coastal regions and communities in a changing world

St Petersburg, Russia

The official language of the Conference is English

Main topics of the Conference:

Coastal systems and their dynamics (from coast to water and from water to coast);

Coastal erosion and dynamical processes in the nearshore zone;

GIS & marine spatial planning;

Climate change in the changing world. Coastal adaptation to climate change;

Construction and exploitation of hydraulic engineering structures and

dredging in the coastal areas;

Study and monitoring of coastal and marine ecosystems;

Approaches to and issues of processes in the coastal areas modelling and monitoring;

Interactions between coastal zone and the open sea: impact on the ecosystems;

Ecological sensitivity of coastal areas: anthropogenic loads and natural disasters;

ICZM – case study and new experience;

Sustainable use and development of coastal resources: effective management and approaches;

Legal and political issues of enclosed coastal seas management;

Human resource and indigenous dimension of enclosed coastal seas management.

Main organizers of the Conference: International Center for Environmental Management of Enclosed Coastal Seas (International EMECS Center); «Sea Coasts» Working Group of the RAS Council on World Ocean.

Local organizers of the Conference: Russian State Hydrometeorological University (RSHU) – Head

organization; P.P.Shirshov Institute of Oceanology of the Russian Academy of Sciences (IO RAS); A.P. Karpinsky Russian Geological Research Institute (VSEGEI).
